Work Experience

The Guardian Life Insurance Company of America, NY **(April 2022 - Present)**

UI Development: Designed and implemented the user interface for the onboarding application, prioritizing responsiveness and a positive user experience.

State Management: Implemented effective state management using React's features and external libraries like Redux, ensuring a seamless onboarding process.

API Integration: Collaborated with backend developers to integrate the application with APIs, addressing challenges related to data synchronization.

Code Quality: Maintained clean and maintainable code through adherence to React best practices and active participation in code reviews.

Collaboration: Worked closely with cross-functional teams, including designers and project managers, to ensure the successful delivery of the project.

Continuous Learning: Stayed updated on the latest React features, contributing to the project's adaptability and integration of cutting-edge technologies.

User Feedback: Actively engaged with user feedback, participating in iterative development processes to enhance the application's user experience.

Projects

Food Order App

Key Technologies:

React: The frontend is built with React, providing a responsive and dynamic user interface. React components enable smooth navigation and real-time updates, enhancing the overall user experience.

MongoDB: Backend services are powered by MongoDB, offering a scalable and secure environment. User authentication, data storage, and seamless real-time updates are efficiently handled with MongoDB.

RapidAPI: Our app seamlessly integrates with RapidAPI, connecting to various APIs for enriched functionalities. Real-time restaurant data, location services, and third-party integrations are facilitated through RapidAPI, enhancing app versatility.

Extracurricular Activities

- **NSS Volunteer:** Participated in mega camps conducted by AURCC in Negamam, Coimbatore.
- **UBA Volunteer:** Participated in Unnat Bharat Abhiyan activities.

Languages Known

- Tamil
- English

Awards

Spirit of Guardian Award

The Guardian Life Insurance Company of America, New York

Certification

Safe 6 Certification

The Guardian Life Insurance Company of America, New York

- Attained Safe 6 Certification, signifying expertise , such as Lean-Agile principles, Agile Release Trains.

Personal Details

Date of birth : 04-05-2001

Address: 132, Aadhi Vinayagar Kovil Street, Kumarapuri, Chennimalai, Erode - 638051.

Stripe: For secure and efficient payment processing, we seamlessly integrate Stripe. Users can subscribe and access premium content with ease, enhancing the convenience of our food ordering experience.

Alan AI: Voice-driven interactions are enabled through Alan AI, offering a personalized and intuitive experience.

Urbaneutopia - Fashion App

Key Technologies:

React: Urbaneutopia's frontend is crafted with React, ensuring a sleek and responsive user interface. React components drive an engaging and seamless browsing experience for fashion enthusiasts.

MongoDB: The backend relies on MongoDB, providing a robust and scalable database solution. MongoDB efficiently manages user data, product information, and ensures a smooth shopping experience.

Node.js: Powering the server-side, Node.js enhances Urbaneutopia's performance. It facilitates quick data retrieval, real-time updates, and seamless communication between the frontend and MongoDB.

Stripe: Urbaneutopia integrates Stripe for secure and hassle-free payment processing. Users can confidently make purchases, leveraging Stripe's reliable payment gateway for a seamless checkout experience.

Other Projects

Netflix Clone : Using React, Firebase, TMDB API, and Stripe for payment.

Shopping app : Using Strapi and ReactJS
